Dated : June 12, 2023

Dear Colleagues,

Hello and greetings...

With the help and cooperation of faculty members, both from colleges as well as from the Department, we have been able to successfully prepare the syllabi of courses for first six semesters (three years) of the on-going UGCF 2022 and that too well in time. Department is thankful to all the participating teachers and also to all committee members of different courses for giving their precious time to thoughtfully prepare these syllabi. Thank you very much to all of you.

Now we need to do it for the fourth year (7th and 8th semesters) which is again a very serious task and is also equally challenging as students are expected to be ready for opting any career including higher studies based on Mathematics UG program and also for many Ph.D. programs across any institution in India and abroad. I, therefore request you all to participate in this task as per your academic and research interest and fill the required data (in EXCEL or PDF file) and submit it latest by Friday June 16, 2023, which will help us in executing the process in time. Please send the duly filled form at ugcf2022math@gmail.com

Warm regards

Ruchi Das
